# **Spiral Starfield**

This component allows you to create a spiral starfield.

NOTE: Read the **Starfield** documentation for information on the shared fields.

## Seed

This allows you to set the random seed used when generating asteroids.

## **Radius**

This allows you to set the outer radius of the starfield.

#### **Arm Count**

This allows you to set how many spiral arms the stars will be split into.

#### **Twist**

This allows you to set how much each spiral arm twists around.

### **Thickness**

This allows you to set how thick each spiral arm is.

# **Star Count**

This allows you to set the amount of stars generated.

### Star Radius Min

This allows you to set the minimum radius of generated stars.

#### **Star Radius Max**

This allows you to set the maximum radius of generated stars.

# **Star Sprites**

This allows you to set all the different types of stars you want in the starfield.
